1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Pearson on July 16, 2004.

The application has been amended as follows:

Amended claim 25 as follows:

Claim 25. A method for identifying a mug having a handle among a plurality of identical mugs, which comprises:

providing a mug handle cover including:

a top being approximately as wide as a handle ; and having an interior top;

a first side extending in a direction from said top and having an inward cone-shaped protrusion on said first side, said protrusion having a base, said base being distal to said top; and

a second side extending in the direction from said top and being laterally opposed to said first side;

said first side and said second side being configured to releasably hold the handle;

marking the mug handle cover to be unique;

releasably attaching the mug handle cover to the mug ; and abutting said interior top to the handle;

releasing the mug handle cover from the mug when finished drinking from the mug.

2. The following is an examiner's statement of reasons for allowance: prior art of record fails to show or fairly suggest a releasable handle cover having the combination as claimed including a top as wide as a handle and having an interior top abutting the handle, a first side extending from the top and having an inward cone-shaped protrusion on it, a second side extending from the top and being laterally opposed to the first side, and the first and second sides being configured to releasably hold the handle. Prior art also fails to show a method of identifying a mug having a handle among a plurality of identical mugs, including marking a handle cover unique, releasably attaching the cover to the mug and abutting the interior top to the handle, and releasing the handle cover from the mug when finished drinking from the mug.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuck Mah whose telephone number is (703) 308-0676. The examiner can normally be reached on 5/4-9.
